my7-s, tu, th, 26t, 18 Marine Matters.

The hull of the new sand and gravel ligging machine, built at the Alexandria Marine railway yard, for the new Potom Dredging Company, was launched a day or two ago, and is now having the boiler er gine and digging machinery installed aboard the boat. The hull was yesterday taken to the Duke street dock at Alexandria, where a quantity of machinery was loaded upon it and it was later taken back to the shipyard. It is expected the new machine will be completed and ready for service early in June, and the new company will then begin operations. With the advent of the Potamac Company machine and scows on the river, there will chine and scows on the river, there will be three sand companies in the field to supply Washington with sand and gravel for building and other purposes. Mr. Argus Campbell of Baltimore is the president of the new company.

The supply of fresh fish of all kinds on the wharf market was amply large to meet an excellent demand this morning, and prices are somewhat lower than they were early in the week. The supply of herring continues very large, in excess of the demand, over 200,000 being on hand this morning. Shad are rather scarce, less than a thousand being on sale.

Prices this morning ranged as follows:

A most delightful Mountain Resort, with large company every year. Everything that conduces to health, comfort or pleasure.

For rates, pamphlets, etc., address

CHAS. F. NELSON, Capon Springs, W. Va. ap28-60t,7 morning. Shad are rather scarce, less than a thousand being on sale.

Prices this morning ranged as follows:
For pan rock, 8 to 10 cents per pound; medium rock, 12 to 14 cents per pound; boiling rock, 15 to 17 cents per pound; white perch, large, 8 to 10 cents per pound; white perch, small, 15 to 30 cents per bunch; river mullets, 15 to 20 cents per bunch; river mullets, 15 to 20 cents per bunch; black catfish, 20 to 25 cents per bunch; white catfish, 25 to 35 cents per bunch; roe shad, 28 to 30 cents each; bucks, 16 to 20 cents each; herring, \$1.50 to \$2 per thousand; small yellow perch, 10 to 15 cents per bunch; large wellow perch, 25 to 30 cents per bunch; salmon trout, 4 to 5 cents per pound; gray trout, \$3 per barrel; croaker, \$3.50 to \$4 per barrel, and flounders, 5 to 6 cents per pound. Carp are plentiful and prices are too low to be quoted.

Oysters are on sale at the 11th street wharf at prices ranging from 45 to 60 cents per bushel. The supply is amply large to meet all demands and is of good quality. Clams are selling at about 60 cents per hundred and the demand for them is quite heavy.

A nile driver is at work rebuilding the FOR SALE-LOTS AT COLONIAL BEACH, \$75 each; cottage for rent, \$50 for season; salt water bathing, &c. Full particulars by mail. Address Box 238, Star office. my5-3t\*

residential cottages for season of 1904. "See us first." A. R. C., 407 Bartlett building, Atlantic City, N. J. FOR RENT OR SALE—FULLY FURNISHED COT-tage at Ocean City. Md.: faces ocean, on board walk. For particulars inquire of owner. No. 1536 15th st. my5-3t\*

cents per hundred and the demand for them is quite heavy.

A pile driver is at work rebuilding the big wharf at the River View excursion resort. This work will be completed in a few days and the driver will be brought to this city to do considerable work on the wharves here. A force of hands were put to work yesterday rebuilding the wharf used by the steamer River Queen.

The new steel hulled propeller steamer, building at Baltimore for the Weems Steamboat Company, will, it is stated, be launched in the latter part of this month. Work is to be hurried on the steamer in order to have her ready for the heavy travel of the summer months and is is expected she will go into service about July 1. The new steamer will be larger than any of the river steamers and has plenty of deck room to carry truck.

The tug Wm. H. Yerkes, Jr., brought into port Thursday afternoon Consolidation Coal Company's schooner barge No. 20, to load soft coal at Georgetown for a New England port. Barge No. 6 is now at the Georgetown wharf loading a cargo of Cumberland port. Barge No. 6 is now at the George-town wharf loading a cargo of Cumberland coal. The larger portion of the coal now coming down the canal from the mines about Cumberland is shipped by barge

Fifteen Barges of Sand and Gravel. The tug Unity Thursday afternoon brought up from the sand-digging machines at work on the river between Fort Washington and Marshall Hall fifteen large Hotels and Resorts barges laden with sand and gravel. It is said that the local sand companies are now making every effort to have a large stock of sand on hand to meet the heavy demand expected when the work on the railway tunnel under Capitol Hill begins. The barkentine Francis of Baltimore has been sold to northern owners and will be taken to Bath, Me.. to have her rig changed

into that of a three-masted schooner. She will be used, by her new owners, on the coasting trade. The United States army quartermaster's department lighter Pontonier, the tender to the United States engineer's battallon at Washington barracks, made a trip to Fort Foote, Md., yesterday with a company of the engineers aboard. The soldiers were given a practice drill for several hours be-fore they were brought back to this city.

The power sloop Rosalie, which was hauled out on the marine railway at Reagan's have a leak stopped, has been put overboard, ready for service.

The tug Emma, having in tow the barges
John I. Brady, Mary Brady, F. W. Cominsky and Sharon Hill, has arrived. The barges bring hard coal from Philadelphia. The schooner Ella is in port with a cargo of salt fish in barrels from a fish-packing nouse on the river. The schooners Irene, Edith Verrall, May

flower, J. D. Bell, Effie C., Nettle May, Clara Cowart, Samuel Wood and Oak Point are in port with cargoes of cordwood for the dealers. The schooner G. C. A. Travers is at Alexandria loading a cargo of glass bottles

Point, on the lower Potomac, with a cargo of building material. The schooners Wildflower, Ida, William Lewis, Hattle Stark and Bill Nye, laden with lumber from Virginia ports, have ar-

JUSTICE SHEPARD'S OPINION.

the question propounded to him, and ordered his discharge from all.

The dissenting opinion of Justice Shepard declares that he is unable to concur in the declares that he is unable to concur in the discharge of the petitioner because, while he thinks it better practice for the justice issuing the writ of habeas corpus to make it returnable before himself, he does not agree that he has not power to return it

Instead of joining issue and introducing evidence he stood upon his demurrer to the return and thereby admitted its entire

damental rule that it is the light of every litigant to have introduced every material and relevant fact that may tend to shed light upon the issue joined," and as this was a voluntary statement by the witness he himself made the question "not only rel-evant, but practically important."

REAL ESTATE GOSSIP

Some Large Building Enterprises of the Season.

MILLIONS TO BE SPENT

PROGRESS IN IMPROVEMENTS AND LAND OWNERSHIP CHANGES

Removal of a Banking Building Nearly Eighty Years Old to Make Boom for a Modern Structure.

Mr. William T. Davis, architect, has drawn plans for a two-story and basement east. It is being built for D. K. Meredith Each floor contains three rooms, and the two upper stories are each provided with a bath room, so as to allow their use as flats if desired.

Mr. Davis has prepared the plans and is superintending the carrying out of the same for the changes and addition to 911 E street northwest, incidental to changing the second and third floors of the present structure into flats. Mr. W. E. Mooney is the builder. The structure will be heated by steam.

He has also prepared plans for two six room buildings which are under course of erection for Mr. C. B. Church, to be known as 819 and 821 New Jersey avenue southeast.

Plans were also prepared by Mr. Davis for the changes and addition made in the residence of Dr. P. B. Brooks, No. 318 3d street southwest.

The same architect prepared the plans for changes and bay-window addition now be-ing made to No. 2020 G street northwest for Mr. E. A. Macomber; also for the new shop and ice house of the American Ice Company, located on Water street between 9th and 10th streets southwest. Mr. James Grant is the contractor for the erection of this structure.

Old-Time Banking Houses. The old Riggs Bank building, at the northwest corner of Pennsylvania avenue and 15th street, is fast disappearing, and in its place will arise a handsome modern structure, which will be specially adapted for the banking business. When the old building was put up, nearly eighty years ago, it was designed for use as a banking house, and suited well the requirements of the buisness in that day and for many years later. It was erected by the United States Bank for the use of its branch bank in this city. Like its predecessor, the first United States Bank, which went out of existence about the year 1815, the establishment in this city was a rather elaborate affair.

The first bank provided for its branch office here not merely a banking building but, as was the custom of those days, ad-

watchmen employed for the protection of the bank. In the case of the old Riggs Bank building the house for the cashier remained standing until a few years ago, when it was taken down, and on its site the present Riggs Bank building was put up. The old one-story structures fronting on 15th street were a part of the establishment, and were used either in connection with the domestic establishment of the cashier's residence or possibly were occupied by the night guard

joining the banking house was a residence for the cashier, and a guard house for the

The first branch bank was located at the northeast corner of 13th and F streets, and was equally extensive, as it comprised a two-story banking building, a residence for the cashler fronting on F street joining the bank, a guard house and other

outbuildings. This property in the spring of 1818 became the home of the new branch bank, it having spent the first year of its existence in rooms provided in the Treasury Department. After the lapse of some seven years the branch bank was removed to the building which it had erected at the northwest corner of Pennsylvania avenue and 15th street. The bank went out of existence and the building became in the year 1845 the property of Corcoran & Riggs, and has re-mained in the same line of ownership down to its recent sale to the American Security and Trust Company.

New City Buildings.

The amount of building that is done in this city during the present year, or rather the amount that is to be begun, having been authorized at the last session of Congress, reaches a considerable aggregate In some particulars, however, the coming year will not be as prolific of public work as is frequently the case. For example provision is made for the erection of only two school houses, whereas for some years past the growth of the system has such as to make necessary the putting up each year of quite a number of buildings. During the coming year authority is given for buying the ground and erecting two eight-room school buildings. Money has been provided for the purchase of ground adjoining the Magruder School for an extension and also the Takoma School building is to be enlarged. A new school building is to be erected in the northeast section of the city and one at Mount Pleasant. There is to be an enlargement of the Po-lice Court building at the northeast corner lice Court building at the northeast corner of 6th and D streets, and the money has been provided for the purchase of the needed space, which will be either on the 6th or on the D street side of the building. Another purely municipal expenditure during the coming year will be the building for an industrial home school for colored children, for which the District Commissioners are given supporting to procure sioners are given authority to procure plans. The location of the structure is to be on the 200-acre tract which the District owns at Shepherd's landing on the Potomac opposite Alexandria. This property was acquired for use as the site of the proposed municipal almshouse, for which an appropriation has been made.

Extensive Enterprises.

Perhaps the largest expenditure of public funds that will be made during the present year will be for the filtration plant, the appropriation for which amounts to \$1,500,000. Then there is the highway bridge over the Potomac, which, in connection with the new railroad bridge, is to take the place of the present Long bridge. Nearly half a million is available for the construction of the

highway bridge. In buildings that are to be used by the in buildings that are to be used by the general government there is to be a considerable amount spent. Progress is to be made in erecting the office building for the use of the House of Representatives. The location has already been secured, and comprises the entire square to the northeast of the grounds of the Capitol, and bounded by New Jersey avenue, A and 1st streets northeast. The structure which is to be erected there, and covering practically the entire square, is to cost about three mil-lions of dollars.

ship of the square bounded by Delaware avenue and 1st street northeast, and fronting on the Capitol grounds. Three quarters of a million dollars are available for the purchase of the ground and the preparations of plans for the building, which is to cost about \$2,500,030. This structure will be smaller than the one on the opposite side of the square, for the reason that as the Senate is a smaller body than the House there will be no need for as much room. It is proposed to put up a building that will have ground about it, and that will not border directly upon the street. It is likely some plan for the proper treatment of the central portion of the east front of the Capitol building will be agreed upon by the commission appointed for the purpose by the time Congress convenes again, and then the way will be clear for deciding whether to enter upon such a work. If the conclusion is favorable to the undertaking, two or three million dollars will be required to carry out the plans.

The sum of \$750,000 is to be expended in the purchasing of land at South Capitol street and Virginia avenue for the building of a power plant for supplying electric current for the various uses in the Capitol building and the Library. Half a purchase of the ground and the preparaword of the day's session. Bishop Cydreenbrier White Suiphur Springs,

million of dollars is to be expended in 5 power plant at the navy yard, and provision is made for the erection of a new building for Freedmen's Hospital.

Suburban Property Improvements. Mr. Samuel C. Hill, with E. Lodge Hill, who are the exclusive agents for Colorade Heights, reports that the extensive improvements in that subdivision are progressing rapidly. The stone foundation on which the large house, now standing in the center of the tract, will rest is being constructed, and when completed the house will be put in first-class condition, corresponding with all other improvements if this subdivision and will be for sale. It will be located on two lots on 88th street, 50x115 feet to 15-foot alley. Mr. Hill reports that the inquiries for lots are numerous and the sales are progressing very satisfactorily.

He reports also that there is considerable activity in suburban property in the north-east section and that they have in the past week secured for sale a tract of twenty acres, situated on Queen's Chapel road, ad-joining East Brookland, with water, sewer and gas and within two squares of Rhode Island avenue electric cars.

An Office Building.

The large structure 1412 H street, which was at one time the home of the Jefferson Club, is to be rebuilt and changed into a four-story office building. The plans have been made by Mr. F. B. Pyle, architect, for Weaver Brothers, the agents for the owner. There will be suites of two and four rooms designed for the use of doctors, dentists and other professional men.

Sales of Realty. Moore & Hill, real estate brokers, report

the following recent sales: For John G. Campbell to Miss Frances L. Allen, 1916 Paltimore street, Washington Heights, for \$9,200; to Franklin T. Sanner, the large lot corner Adams Mill road and Cincinnati street, Washington Heights, on which Mr. Sanner will erect his residence; for John G. Campbell, 1902-1904 3d street northwest, for \$5,500 each, the purchasers being Patrick J. Farrell and Herbert R. Sands; for Harry Wardman, ten of his apartment buildings on O street and Dumapartment buildings on O street and Dumbarton avenue between 30th and 31st streets, some of the purchasers being as follows: 3028-3030 O street northwest to Jonathan E. Spurr, 3032 O street to Mrs. Annie L. Beverly, 3038 O street to Rev. Dr. Thomas K. Noble, 3040 O street and 3017 Dumbarton avenue to N. D. Mainard, 3021 Dumbarton avenue to Mrs. Kathleen M. Wade, 3021-3025 Dumbarton avenue to Ed-

Wade, 3023-3025 Dumbarton avenue to Edgar M. Briggs.
For Mrs. Ella R. Allen to John A. Gleeson, 421 H street northeast, for \$4,100; for Mrs. Catharine Parker, 43 L street northeast, for \$3,000 to Frank E. Fugard; for Miss Annie E. Bowie to Mrs. Margaret A. White, 519 9th street northeast, for \$1,900; for John G. Campbell to Mrs. Helen W. Mahorney, 1418 11th street northwest, for

For Cleveland Park Company, two houses for Cleveland Park Company, two houses in Cleveland Park, for \$6,500 and \$7,500, respectively; for Mrs. Annie M. Shaw, 1206 Kirby street northwest, \$1,800, and to Mrs. Anna M. Shaw, lot on Rhode Island avenue between 11th and 12th streets northwest; to John P. Shaeban, lot in Line northwest; to John P. Sheehan, lot in Ingleside, for \$3,000; for Judge Charles C. Cole, two lots in Moore & Barbour's subdivision of Bloomingdale, for William K. Cohen, 2002 15th street northwest, for \$7,500; to Rev. Dr. Thomas K. Noble, house on 11th street northwest, for \$4,000; to Clinton Todman, 216 E street northwest.

THE FILIPINOS PRAISED

WORKED ON CABLE SHIP BURN-SIDE IN ALASKAN WATERS.

Lieut. Col. Allen Reports That They Are Energetic, Capable and Willing at All Times.

Gen. Greely, chief signal officer of the army, has reported to the Secretary of the complete success of an experiment, considered doubtful by many, of utilizing the Filipinos employed as cablemen in the archipelago by transferring them to southeastern Alaska, where extened cable operations were carried on by the Signal Corps in the summer and autumn of 1903. The United States transport Burnside, fitted up as a cable ship, arrived at Sitka, Alaska, July 6, 1903, having about sixty Filipinos in its crew, of which about twenty were engaged in the technical labor of cable laying and repairs. These men were engaged in this work until October 21, their services extending well into the autumn and covering severe weather at sea and a dangerous sea voyage, in which the Burnside barely escaped total destruction.

Lieut. Col. James Allen, in his report upon cable operations, says:

"I desire to call special attention to the Filipino crew, both those connected with the navigation of the ship and the cable men. Owing to the small number of men the Burnside had on borad and the arduous work required from them, they were called upon to do extremely hard work and during all hours of the day. The work was, however, always cheerfully performed by them, and in no case during the entire trip was any sort of punishment adminis-tered to these men. They continually grew in strength, and with the exception of slight colds from exposure, they were in excellent health throughout.

"The point desired to be made preminent is that these men, taken from the Philippine Islands and sent directly into the cold of Alaska, were able to perform all the duties required of them in the most satisfactory manner. They were skillful as members of the ship's crew, especially in the handling of cable and the management of boats and picking up of buoys. I feel sure that it will be of interest to the War Department to know that it was demon-strated that the Filipino is capable of rendering such excellent service aboard ships even in the extreme northern climates." In forwarding this report to the War Department Gen. Greely says:
"In conduct, efficiency and zeal the Fili-

pino laborers were highly satisfactory and far exceeded in these respects the highest expectations of their most enthusiastic

PARIS HOTELS ST. JAMES and ALBANY. my7-s,tf URGE A NEGRO BISHOP.

Growth of the Church Shown-American University Commended. A dispatch from Los Angeles, Cal., says: At the Methodist general conference here Dr. George Elliott of Detroit presented a memorial to the effect that the committee on episcopacy consider the advisability of the election of a colored bishop. He said that he believed the M. E. Church had

reached a crisis in its relations with the colored race. "If we are to hold the 300,000 colored membership we now have," he said, "we ought to give them some sort of leadership, which they understand and trust, and which understands them."

Charles P. McClelland of New York, lay delegate, spoke in opposition to Dr. El-liott's resolution. Mr. McClelland said he was very sorry that this resolution was offered at this time; that if the church had reached a crisis in its relations with the colored people, it was brought about by just such resolutions as this. He believed that the race question had been brought before the conferences entirely too much, before the conferences entirely too much, and he said he hoped the present conference would put an end to this kind of discussion. He was willing, he said to see any man elevated to episcopal hopors, regardless of color, when that man should attain to such work and distinction as would warrant this high recognition.

The reading of the quadrennial address of the bishops of the Methodist Episcopal Church to the general conference was the feature of the day's session. Bishop Cydus D. Foss of Philadelphia read the address. The present membership of the

Dissents to Views of Justice Alvey in

Elliott Case. Mr. Justice Shepard of the Court of Appeals yesterday afternoon filed his dissenting opinion in the case of Henry R. Elliott, the witness in the Galt will case, who declined to answer a question put by the court. The opinion of the Court of Appeals, written by Mr. Chief Justice Alvey and filed last Tuesday, reversed the order of Justice Wright of the District Supreme Court, committing Mr. Elliott to jail for contempt of court in refusing to answer

before another justice.

The petitioner, the opinion states, is not entitled to have his case determined upon the facts alleged in his petition unless they were admitted by the return. The return denied all the facts alleged in the petition, which were not specially admitted.

Instead of tolining issue and introducing before another justice.

The third reason assigned by Justice Shepard is that, "considering the case in the light of petitioner's own statement, he ought to have been compelled to answer, because the due administration of justice depends upon the maintenance of the fundamental rule that it is the right of every littered to have introduced every material.

Millions to Be Spent. On the opposite side of Capitol square the general government is to acquire the owner-
